Education

2021 BFA – University of Hawai'i at Mānoa, Department of Art and Art History (area of specialization – Electronic Art & New Media)

Professional Experience

2022 Freelance, Assistant 3D Designer on Harbor Friends NFT, (remote) - *delayed until TBD*
Modeled and textured game-ready characters along with wearable assets that complied with each individual character model. Assisted with the formatting of the models and main file to allow for a flawless final export and batch rendering process.

2022 Freelance, 3D Designer on Skulls by Marcus Jahmal NFT, Lobus.io, New York City
Recreated 3D models and textures according to a pre-existing concept art. Assets were intended to be game-ready, which includes PBR materials, low poly assets, as well as glTF file formats for use in web browsers.

2022 Freelance, 3D Designer for Girl Friends NFT, (remote) - *delayed until TBD*
Modeled and textured various hyper-realistic assets that maintained a consistency in cyberpunk aesthetics. Assets were intended to be game-ready, which includes PBR materials, low poly assets, as well as glTF file formats for use in web browsers.

2021–2022 Freelance, 3D Designer for Triangle Labs, Los Angeles, CA (remote)
Solely led the creative development process and exploration to bring 2d pixel characters into full 3d models (with a new style, dozens of individual traits, etc.). Collaborated closely with the development team to help design and build assets for UE5 game demos used in pitches and marketing. Collaborated with the narrative team to create models used to drive lore (used in flyers, videos, other marketing materials).
